The chameleon of conforming wakeboards. This board has the rare trait of adapting to you, regardless of your style or ability. We took one of our best-selling all-purpose series that rides without stereotypes and made it lighter, delivering more feedback, and noticeably softer landings. The District, with its hybrid rocker, ranges from smooth/low maintenance turns to wide open high-speed cuts. With fast, predictable takeoffs, to explosive wake to wake jumps, this is a series that truly covers the spectrum. Riders that approach the wake flat into the wake will notice a strong, explosive 3-stage lift. If you approach the wake while on rail you will notice a smooth, blended rocker line with an uninterrupted fast take-off and landing. Riders who tend to distribute their weight evenly will experience a freeride, floaty feel when they initiate turns. On the flipside, riders can experience hairpin turns with quick edge transitions if they shift their weight to the tail of the board.

SIZE CM	ROCKER IN	STANCE IN	WEIGHT LBS	SURFACE AREA SQ IN	CENTER IN
134	2.5	19.5 - 25.5	UP TO 165	803	17
138	2.6	20 - 26	150 - 190	837	17.2
