

FLOATING FINS

STANDARD FINS

BUTTON TECH FLOATING BLUEPRINT FINS

More than just thin profiled tracking devices that track harder, cleaner, and initiate turns with a timeless surf feel – they have some phenomenal swimming skills. A carbon epoxy layup also makes them our stiffest, most responsive construction compatible with our Button Technology.

3.5" - LEFT & RIGHT | 1", 3" - CENTER

FIN-S FLOATING BLUEPRINT FINS

More than just thin profiled tracking devices that track harder, cleaner, and initiate turns with a timeless surf feel – they have some phenomenal swimming skills. A carbon epoxy layup also makes them our stiffest, most responsive construction compatible with Fin-S 2.0 Mounting System.

2.5", 3", 3.5", 4" - LEFT & RIGHT | 1", 4.5" - CENTER ONLY

FIN-S FLOATING PIVOT FINS

Everybody is looking for an edge – now you have a new way to cut corners with a quicker turning radius. Pivot fins have a shorter base than our classic Blueprint fins for an easy shortcut.

3.5" & 4" - LEFT & RIGHT

FIN-S/BUTTON TECH FLOATING NUB FINS

Every great band needs a rhythm guitarist. They thicken up the band's sound, maintain momentum and add layers of variety to the music. Let us present to you the rhythm guitarist of surf fins. Our 1.8" Nub fin may not have the stage presence of the more raked Blueprint, quicker turning Pivot, or faster Flo Thru Fins, but they add stability in your aquatic navigation.

1.8" - SYMMETRICAL

FIN-S FLOATING FLO THRU FINS

The sensation of a hitting the gas pedal without spinning the tires. The Flo-Thru fin was designed for increased speed and less drag without sacrificing traction. Up your flow with the new Flo-Thru fin.

3.5" & 4.5" - LEFT & RIGHT

FIN-S FIBERGLASS BLUEPRINT FINS

A similar rake and outline as the floating version. These standard fins are made out of a traditional fiberglass. They don't have the response of our other Fin-S Fins – but they are used on the same tool-less mounting system.

3" & 4" - SYMMETRICAL

BOTTOM MOUNT ALFRED FINS

Named in honor of the great polycarbonate pioneer. A solid overall fin for the average recreational level surfer. These transparent creations can easily be adjusted with an Allen wrench.

2.3" & 2.9" - SYMMETRICAL

KID'S BOTTOM MOUNT FINS

Smaller in stature, but perfect in performance for the next generation of surfers. Designed specifically for our Super Sonic Space Odyssey Kid's Series. These fins can easily be adjusted with an Allen wrench.

1.5" & 2.3" - SYMMETRICAL
